The joints in the quarry are very good, and the material is bright blue and free from spots; is equal to any in the principality. The extent of the vein is about three-quarters of a mile in length, by an average width of from 10 to 20 yards, and from the favourable position and inclination of the vein, it can be opened and wrought at a comparative small outlay. The fall for refuse is all that can be wished for, and the space ample for contractors. There is water power sufficient for all purposes of machinery within 20 yards of the Quarry, to which an incline can be made at a trifling expense.

It is proposed to put this property into 1000 shares, at £5 each. The allotment of shares will take place in the early part of April. E. WOLFF & SONS' newly-invented CRETA LÆVIS, or PERMANENT DRAWING CHALKS, in cedar, in every variety of colour.—E. WOLFF and SONS beg to state that they have, by the introduction of great improvements to their CRETA LÆVIS, enabled it to be used the same as the ordinary pencils; and effects can now be produced equal to water-colour drawings, without the use of water or any other fluid; the various colours blending together with perfect harmony, beauty, and richness. It can be cut to a fine point, and is thus capable of giving a very delicate outline. For sketching from Nature, the great advantages resulting from the adoption of the CRETA LÆVIS must be obvious, as without the use of water, palette, brushes, &c., all the various tints can be obtained with a truthfulness that cannot be surpassed, and by their compact form may be carried any distance without the slight inconvenience; thus superseding every other method in general use. The drawings may be carried in a portfolio with safety, as, unlike other crayons, they will neither rub off nor suffer injury by coming in contact with the usual contents of a portfolio. The CRETA LÆVIS, unlike the indelible or wax crayons, WILL NOT BE AFFECTED BY HEAT OR CHANGE OF CLIMATE.

E. WOLFF and SONS' IMPROVED CRATON PAPER is the best for the CRETA LÆVIS. To be had of all Artists' Colourmen and respectable Stationers, in leather boxes, containing sets of 12, 18, 24, 36, 48.—A Pattern Card, containing the whole of the shades and colours of the CRETA LÆVIS, with their names and numbers attached to each shade, price 1s. each. CAUTION.—As there are several spurious imitations, it is necessary to observe that every Pencil is stamped, "CRETA LÆVIS, E. WOLFF and SONS," London, with name of the colour.—Creta Lævis Drawings lent to copy at C. R. CLIFFORD'S, 20, Piccadilly.
Manufactory, 38, Church-street, Spitalfields, London.
